JS

Languages:

Fluent: Dutch, English
Intermediate: Spanish, French
Basic: German

Additional Information:

Dual Citizenship - USA
and the Netherlands

EXPERIENCE

Vanderlande • Veghel, NL
Mar 2017 - present
Design / Project Lead

Designed and developed a concept for luggage drop-off at airports. Presented at the Inter Airport Europe 2017 exhibition. Convinced stakeholders of the feasibility and viability of the product by introducing a human-centered design approach during the sales phase and sold the product to Dallas Fort Worth International Airport.

User Experience Designer

Launched Vanderlande's first User Experience (UX) division. Explored how to deliver value to users of high-level control airport software with a team of five designers. Convinced board of the value and helped raise a million-dollar budget to set up scrum teams and start development. Minimal Viable Product (MVP) was achieved beginning of 2019.

Managing Editor / Writer • Turn The Page, Design Magazine • Delft, NL
Sep 2016 - Jan 2017

Developed content, designed feature layouts, responsible for fundraising and client relations.

OTHER EXPERIENCE

Research Assistant • Carnegie Mellon University • Pittsburgh, USA
Sep 2019 - present

Edited Professor Jonathan Chapman's manuscript. Currently co-designing new course related to the book.

Freelance 3D Design Engineer • Pelvitec • Delft, NL
May 2015 - Jan 2016

Created and printed 3D models of human body parts to be used by doctors as a physical aid.

Office Assistant • Nauta Dutilh • London, UK
Jul - Aug 2014

Organized events and legal data, responsible for answering and directing phone calls.

SELECTED PROJECTS

Power to the Plants • Carnegie Museum of Natural History • Pittsburgh, USA
Nov - Dec 2019

Co-designed a multi-sensory and participatory museum experience that visualizes the effect of climate change on vegetation using deep time.

Self Bag Drop FLEET • Vanderlande • Veghel, NL
Aug 2017 - Aug 2019

Designed a baggage check-in system that was piloted at Dallas Fort Worth International Airport, together with the award winning FLEET technology.
